

WALCO team members value the philosophy that growth and development is the functional conduit to success. Through this unified commitment to continuous improvement we make notable gains in the areas of quality, efficiency and innovation. At WALCO, we strive to attract individuals who share this commitment to a team approach while delivering unsurpassed quality products to our customers.

WALCO is currently looking for dedicated and experienced CNC machinist willing to work 2nd or 3rd shift with at least 10 years CNC machining experience.

DESCRIPTION:

Operate computer numerical control machines to fabricate parts on CNC machining center. Performs highly diversified and complex contour milling, drilling, boring, tapping or machining of products either manually or under tape or computer control. Loads parts in machine, cycles machine, detect malfunctions in machine operations such as worn or damaged cutting tools. Run production lots, communicate with co-workers regarding production runs, and maintains safe, organized and clean work environment.

Experience:

- 10 years minimum set-up, operation and programming of CNC
- Must be fluent in G codes
- Blueprint reading
- SolidWorks and AutoCAD a plus
- Develop and demonstrate basic knowledge of 5S and Lean principles to drive continuous improvement throughout the organization
- Commitment to continuous improvement through self-education and company sponsored training

In addition to the opportunity to develop your talents in a friendly work community, the right candidate will enjoy:

- Competitive compensation commensurate with experience
- Blue Cross/Blue Shield HMO or PPO health insurance
- Dental/Vision/Short and Long Term Disability
- Paid vacation and holidays
- 401K
- Accidental Death and Life Insurance policy
- Tuition assistance
- Employee Assistance Program

Qualified applicants must submit to a background check, physical exam and drug test.

Women are encouraged to apply!
